

The Program

The Lower Platte South NRD sells seedling trees and shrubs in bulk to cooperating land-owners. The minimum order is 25. Species are sold in bundles of 25 (except if ordering packages) and therefore must be ordered in increments of 25. All trees and shrubs are \$0.85 each for orders of 25 - 75 seedlings and \$.80 each for orders of 100 seedlings or more. Trees ordered will be delivered directly to the NRD office and stored in our custom-made tree cooler. It is up to the cooperator to retrieve their trees after receiving notification around mid-April. **The earlier you pick up your trees from our tree cooler and plant them, the better their survival rate will be.**

Planning

At your request, the NRD forester will make a free planning visit with you to your tree planting site and suggest species of trees that would most benefit you and your land. Contact Jay Seaton, 402-432-6552 or the NRD, 402-476-2729. If you wish to do your own planning, the NRD can provide you further information about species or visit nrdtrees.org.

Procedures

Visit lpsnrd.org and look for the online ordering link or complete the "Tree Request Form" on the reverse side and send it, along with a check in the appropriate amount to the NRD at the address on the form. Order forms and payment need to be at the NRD by March 24, 2017. Some species may sell out and you may then opt for another species or receive a refund. Trees will be delivered to the NRD in April.

Tree Planting

The NRD will no longer provide seedling planting services. Visit our You Tube page at www.youtube.com and search: "lower platte south nrd" to see our video titled "Planting a Seedling Tree." If you have questions contact the NRD forester at 402-476-2729.

About the NRD

The Lower Platte South Natural Resources District is one of 23 Districts in the state of Nebraska formed in 1972 for the purpose of managing the state's natural resources. Programs and activities include all areas of natural resource management and development: tree planting, flood protection, wildlife habitat, streambank stabilization, environmental education, land treatment, water monitoring and many others. The districts are partially funded by property taxes and are governed by a board of directors--elected representatives who serve four-year terms. The NRD system is local government working to protect local natural resources. The Lower Platte South NRD includes nearly all of Lancaster and Cass counties and parts of Seward, Saunders, Otoe and Butler counties.

The Lower Platte South Natural Resources District is an equal opportunity provider and employer.
