Item #7c

Memorandum

Date: April 19, 2023
To: Each Director
From: David Landis, Chair DL
Subject: Salt Creek Flood Resiliency Ad Hoc Subcommittee

Paul assures me that the chair has authority to create an ad hoc subcommittee and so I want to put my thoughts down on paper. We have known since the last Board retreat that the study of Salt Creek's floodplain reveals the need to attend to the risk of flooding in our area of jurisdiction.

The purpose of this subcommittee is to review the Salt Creek Floodplain Resiliency Study and to review the identified alternatives for possible action. The subcommittee is directed to formulate a work plan on the next steps, estimate costs of alternatives, and prepare recommendations for Board consideration. The subcommittee can make funding requests for the FY'24 budget and LRIP and prepare suggested goals.

The Subcommittee is authorized for one year of operation, May 1, 2023, to May 1, 2024. The Subcommittee shall meet at the call of the Subcommittee Chair and may make recommendations to the Board for Board action.

The Subcommittee is authorized and encouraged to establish working relationships with potential partners including the City of Lincoln and other public entities, local, state or federal.

Larry Ruth will chair the Subcommittee. Other members shall be Deb Eagan, Chelsea Johnson, Ken Vogel, Susan Seacrest, Ray Stevens, Bob Andersen, Gary Hellerich, Anthony Schutz and David Landis.
