Make sure that you use examples whenever possible.

1. Describe how the field trip made a difference in your understanding of biology.
2. What long-term benefits could the field trip provide to you?
3. How did you apply what you had already learned in school to the field trip?
4. What skills have you gained from the field trip that may help you become a better citizen towards Nebraska's Natural Resources?
5. Based on this field trip would you return or recommend the area you visited to friends?
