A. Discussion of Selection Process for Consulting Services for Revision of LPSNRD's Ground Water Management Plan (GWMP)—NO ACTION

Mike Sousek reviewed District Operating Policy G3 which lays out the process for selecting professional services, in this case for consultation regarding revision of LPSNRD's GWMP. As per the policy, Sousek formed a selection committee consisting of himself, Directors Bob Andersen and Susan Seacrest, Dick Ehrman, and Steve Herdzina. Interviews of all three responsive firms were conducted on December 3, and the selection committee ranked them as follows: 1) HDR, 2) LRE Water, and 3) Geosyntec. This meeting was organized to provide Subcommittee members with additional information and clarification regarding the interviews and selection process. Discussion included recalling how similar efforts have been handled in the past, the appropriate level of Board involvement in the process, and the necessity of making the GWMP an ongoing, useful document. Currently, staff intends to begin contract negotiation with the firms in order of preference, and to have a document ready for Subcommittee and Board consideration in either January or February 2025.

No action was necessary based on discussion, and the meeting adjourned at 2:01 PM.
