The FY24 accomplishments for each program (district-wide, targeted, and GIS Support & Imagery) were reviewed and discussed. Potter and Cowan updated the subcommittee on the staff review of the cover crop program and discussed the construction restrictions due to drought and on the status of conservation work in the district. Potter also provided updates on changes to the cost-share maximum dollar amounts, the Twin Lakes Watershed Section 319 Project, status of digital imagery, district-wide water quality management plan, and NACD grants. Following discussion on the accomplishments, the nine-month update of the measurable goals and the Natural Resources Benefits of Practices and Programs Table were presented and reviewed, along with the Master Plan goals, desired outcomes and objectives and the LRIP and budget status codes. The subcommittee then discussed the proposed actions and expenditures for FY25 and for FY2026-2029. Staff explained each action item and proposed expenditure. Discussion followed on land treatment cost-share, the NRD Cover Crop Program, weather stations, and unspent funds.

With no further recommended modifications, additions, or deletions, **it was moved by Seacrest and seconded by Green to submit the final FY 2025 Actions and Budget Requests and the FY 2026-2029 Actions and Proposed Expenditures for Land Resources to the Finance and Planning Subcommittee for inclusion in the first draft of the FY25 Budget and LRIP.**
