Long Range Implementation Plan Budget	149

INTRODUCTION

The Lower Platte South Natural Resources District is one of twenty-three natural resources districts in Nebraska created by the Nebraska Legislature in 1972. The districts are organized according to the state's river basins.

The natural resources districts have the responsibilities to develop and execute plans, facilities, works and programs related to:

“Erosion prevention and control, prevention of damages from floodwater and sediment; flood prevention and control; soil conservation; water supply for any beneficial use; development, management, utilization and conservation of ground water and surface water; pollution control; solid waste disposal and sanitary drainage; drainage improvements and channel rectification; development and management of fish and wildlife habitat; development and management of recreational park facilities and forestry and range management.”

Nebraska statutes require each natural resources district to prepare a Master Plan and a Long Range Implementation Plan. The Master Plan, which was updated in January 2009, will be in effect for a period not to exceed ten years. It serves as a broad framework for district activities, as described in the attached District's Visions, Desired Outcomes and Objectives.

The purpose of the Long Range Implementation Plan is to summarize planned district activities and budget expectations for the current fiscal year and the subsequent four years. The Plan includes projections of personnel, financial and land rights needs for the planning period.

The Long Range Implementation Plan serves as an implementation tool of the Master Plan. It lists annual programs enacted to achieve the current Visions, Desired Outcomes and Objectives.

The Long Range Implementation Plan is subdivided by Subcommittees and further by Program Areas. For each subcommittee, there is a graph showing the budgeted expenditures for FY 2019 and projected budgeted expenditures for FY 2020 – 2023. For each Program Area, there are Actions listed for Fiscal Years 2019 – 2023, with the Fiscal Year 2019 being more detailed and FY 2020 – 2023 having less certain projects and estimated costs. On the FY 2019 sheet, the second column titled “Draft Budget,” is the “Expenditure” number that was recommended by the Subcommittee and included in the first draft of the FY2019 budget; the number in the next column represents any funds from sources other than the District. The numbers in the column, titled “Final Budget” represent the amounts included in the final budget adopted by the Board of Directors. The last column titled “Budget Code” is the code in the budget documents for each particular expenditure. Where there are no funds in the “Approved Budget” column, either that action is deferred to a later year, dropped from programming, or will require no expenditure to implement. Those actions where funds were proposed in the “Draft Budget” but reduced or zeroed out in the “Final Budget” are generally included in the next fiscal year Actions.

LOWER PLATTE SOUTH NRD STAFF

Paul Zillig – General Manager
 David Potter – Assistant General Manager
 John Albert – Conservation Technician (NRCS)
 McKenzie Barry – Environmental Education Specialist
 Katie Cameron – ENWRA Project Coordinator
 Connie Damrow – Bookkeeper Assistant (part time)
 Dick Ehrman – Water Resources Specialist
 Connie Hansen – District Secretary (NRCS)
 Kathy Hauschild – Receptionist
 Kyle Hauschild – Storm Water/Floodplain Specialist
 Trent Henry – Maintenance Technician
 Steve Herdzina – Water Resources Conservationist
 Bryce Jensen – Operation / Maintenance Technician
 Ariana Kennedy – Resources Conservationist
 Nathan Kuhlman – Information Systems Administrator
 Al Langdale – Operation/Maintenance Coordinator

Mike Mascoe – Public Information Specialist
 Craig Matulka – Operation/Maintenance Technician
 Donna Reid – District Office Secretary – Program Assistant
 Ryan Rezac – Water Resources Compliance Specialist
 Shaula Ross – GIS Specialist
 Dan Schulz – Resources Coordinator
 Jay Seaton – NRD Forester
 Kathy Spence – Administrative Assistant
 Cindy Spilinek – Conservation Technician (NRCS)
 Adam Sutton – Environmental Education Assistant
 Ed Ubben – Projects Coordinator
 Jean Ulrich – District Secretary (NRCS)
 Vacant – District Engineer
 Vacant – LPRCA Coordinator
 Chris Witthuhn – Water Resources Technician

LOWER PLATTE SOUTH NATURAL RESOURCES DISTRICT

VISION	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
A. Sustainable Water Resources	A1. Ground water quantity and quality is known for the entire NRD	A1a. Create interactive data bases of all hydrogeology and water quality data A1b. Implement a quality and quantity monitoring network of wells in all critical areas A1c. Investigate hydrogeology where data/wells are not available A1d. Develop estimates of ground water availability, yield, and quality at all locations	6
	A2. Ground water levels stable and quality meets standards	A2a. Manage quantity and quality consistent with Ground Water Management Plans	6
	A3. Ability to predict changes in ground water quality and quantity	A3a. Design interactive/predictive models for all geographic areas of management	6
	A4. Areas of interrelated ground and surface water are managed	A4a. Identify and map areas of interrelated ground and surface waters A4b. Implement integrated management plans for each area	6
	A5. Surface waters meet or exceed water quality intended use standards	A5a. Identify and quantify source impairments of desired beneficial uses A5b. Implement plans to preserve or restore desired surface water quality A5c. Install monitoring network in watersheds and in-lakes/streams for water quality	6, 7
	A6. Minimum streamflows are maintained for fish, wildlife, and recreational uses	A6a. Quantify minimum streamflows for each critical stream segment A6b. Acquire instream flow rights on priority segments A6c. Implement a program to protect and/or supplement streamflows A6d. Establish a monitoring network on instream flow stream segments	6, 7, 10
	A7. Wastewaters meet or exceed regulatory standards	A7a. Identify and evaluate all sources of wastewater and treatments A7b. Develop a program to assist with improvements to meet regulatory standards A7c. Establish regional wastewater systems where appropriate	7, 8
	A8. Domestic water supplies meet or exceed regulatory standards and are of adequate quantity.	A8a. Identify and evaluate all domestic water supplies and systems and quality A8b. Develop a plan to protect and enhance existing and future domestic water supplies	5, 6, 7
	A9. Landowners/public all utilize best management practices	A9a. All water users know how much water they use for what purposes A9b. All water users know the quality of their water A9c. Information and education of water users on Best Management Practices A9d. Promote water and energy efficient irrigation practices	1, 4, 5, 6, 7, 10, 12

STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water

7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

VISION	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
B. Low Impact Developments	B1. Developments are compatible with and conserve the site's natural resources and use "green" BMPs	B1a. Include open space in all new residential and commercial developments B1b. Water-wise landscaping planted in new developments B1c. Integrate stormwater quantity and quality BMPs into all existing and new developments B1d. Require cluster development and shared infrastructure in rural areas B1e. Educate developers and homeowners on "green" BMPs for developments B1f. Require detailed analysis of water supply availability and quality in developments rural developments B1g. Utilize conservation easements to protect open spaces and natural areas in new developments B1 h. Water practices in new developments meet or exceed regulatory standards.	1 - 7, 9, 10, 12
C. Minimal Flood Threat and Damage	C1. All floodplains have been accurately mapped	C1a. Utilize newest photography, topography, and models to digitally map flood plains C1b. Update flood plain maps periodically with land use and other changes	2, 3
	C2. Flood plains are regulated under a "no adverse impact" policy	C2a. Assist cities and counties to revise ordinances to incorporate "no adverse impact" policy C2b. Assist cities and counties to revise ordinances where appropriate require no net rise/no net loss of storage	2, 3
	C3. Public safety risk from flooding is minimized	C3a. Install and operate flood warning systems in critical areas C3b. Assist in development of flood response plans in place for all communities and C3c. Monument flood plain boundaries in key areas C3d. Assist in establishment of buyer notification of floodplain risks C3e. Educate public about flood threats and response plans	2, 3
	C4. Flood damages are reduced or eliminated	C4a. Cooperate in programs to retain flood plains as open space in new developments C4b. Acquire and hold conservation easements to preserve critical flood plains C4c. Assist in revision to Lincoln's existing urban area ordinances to include storage no rise pensatory C4d. Acquire and relocate high-risk structures from flood plains C4e. Assist in ordinances to require new subdivisions to absorb their stormwater quantity impacts C4f. Implement cost-effective and environmentally sound flood storage projects to reduce existing and future flood impacts	2, 3

STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water

7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

VISION	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
D. Protected natural and unique resource areas	D1. Natural and unique resource areas are identified, assessed, and sustained or enhanced	D1a. Identify the location and extent of natural and unique resources areas D1b. Conduct environmental baseline assessments of natural and unique resource areas D1c. Monitoring program established to assess changes in resources D1d. Programs are developed to respond to changes in resources on natural and unique resource areas D1e. Ownership or conservation easements are secured over natural and unique resource areas D1f. Educate public on the value of natural and unique areas	10, 12
E. Ample natural-resource based recreation	E1. Diverse outdoor recreation opportunities available across the NRD	E1a. New developments incorporate new or replace existing recreation opportunities E1b. Development of recreation trails connecting communities and significant destinations E1c. NRD projects provide public access where it is appropriate and feasible E1d. Inspect and maintain recreation areas to be safe, clean and attractive E1e. Highlight natural resources education at NRD public access areas	11
F. Properly managed agricultural lands	F1. Best management practices utilized on all agricultural lands	F1a. Conservation plans implemented on all agricultural lands F2a. Agriculture producers use energy-efficient practices	1 - 7, 9, 10, 12
	F2. Soil losses at or less than sustainable levels	F2a. Treat and manage all lands to soil losses to less than sustainable levels ("T" rates)	1, 4, 7
	F3. Agricultural lands managed according to their soil survey capabilities	F3a. Identify prime agricultural lands and restrict conversion to other uses F3b. Educate land users and public officials about soil capabilities and restrictions	1 - 4, 7, 10, 12
G. Healthy forests	G1. Urban forests are diversified and enhanced	G1a. New developments include trees/shrubs on streets and public lands G1b. Trees are replaced and diversified in existing urban areas on public lands	10, 12
	G2. Rural forestry is expanded in diversity and scope	G2a. Preserve and enhance wooded riparian corridors G2b. Windbreak, energy conservation and wildlife plantings on all rural homesites	10, 12

STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water

7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

VISION	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
H. People are responsible conservationists	H1. NRD is a credible source of information on natural resources	H1a. Public views and uses NRD as a credible source of information H1b. NRD prepares and directs information on natural resources to the public	1 - 12
	H2. Public acts responsibly on natural resources and environmental issues	H2a. Public becomes conservation-minded in their actions	1 - 12
	H3. Agencies and elected officials include natural resources concerns in decision-making	H3a. NRD serve as an advisor to agencies/officials on natural resources H3b. Agencies/officials include natural resource factors in decisions	1 - 12
	H4. Schools provide natural resources education	H4a. Outdoor classrooms are available to students in all grade levels in all schools H4b. Environmental / natural resources curriculum taught at all grade levels in all schools	1 - 12
I. Healthy wildlife populations	I1. Diverse, dispersed, healthy wildlife populations	I1a. Identify suitable habitats for wildlife throughout NRD I1b. Protect and restore critical habitats/corridors particularly riparian areas I1c. Protect surface water quality in lakes, wetlands, and streams I1d. Public aware and supportive of wildlife habitat protection	10
	I2. Critical habitat for endangered species managed	I2a. Identify and map designated critical habitat for all endangered species I2b. Develop and implement recovery programs for each endangered species I2c. Develop and implement Habitat Conservation Plans as appropriate	10
	I3. Wetlands protected and restored to full functions	I3a. All freshwater and saline wetlands delineated, classified and mapped I3b. Critically sensitive wetlands acquired in fee or by easement by the public I3c. Key wetlands restored to their full function	1 - 7, 10
J. Stable climate and clean environment	J1. Climate changes stabilized	J1a. Anthropogenic greenhouse gases are significantly reduced J1b. Global average temperatures are stabilized or improved J1c. Implement practices to stabilize or improve climate changes	1 - 4, 7, 12
	J2. Energy and conservation practices are everyday activities	J2a. Increase proportion of materials that are recycled and reused J2b. Construct buildings and infrastructure to use sustainable materials and techniques J2c. Energy-efficient and low polluting vehicles become standard.	7, 8
K. NRD is a conservation leader	K1. NRD at the forefront of innovative conservation	K1a. NRD conservation programs and projects utilize leading edge conservation technology K1b. Utilize research, demonstrations, and education to promote use of better BMPs by the public and agencies K1c. Promote use of sustainable products and practices in construction of NRD projects	1 - 12

STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water

7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

Complete Lower Platte River Drought Contingency Study to evaluate the effectiveness and efficiency of water conveyance via streams from upstream sources and associated effects on stream flow. (Goals & Objectives 1.3.3)	\$256,610	\$185,229 \$104,660 \$0	\$214,000	\$93,000 \$104,000 \$0	419420	303762 301262 302440
Develop plan and schedule to implement recommendations from Lower Platte River Drought Contingency Study including water conveyance via streams from upstream sources and associated effects on stream flow. (Goals & Objectives 1.3.3)	\$110,000	\$104,000	\$110,000	\$8,800	419420	302440
WATER SUPPLY MANAGEMENT Implement recommendations for limited aquifer areas and coordinate with developers, builders and city and county land-use planners and zoning agencies. (Goals & Objectives 2.1.1)	\$0	\$0	\$0	\$0	419440	
Encourage discussions with municipalities and rural water districts on coordinating services and regional water systems. (2.3.1)	\$0	\$0	\$0	\$0		
Remove invasive species to improve conveyance. (Goals & Objectives 2.5.2) [See Platte River]	\$0	\$0	\$0	\$0		
WATER USE MANAGEMENT Continue agricultural irrigation BMPs and technology. (Goals & Objectives 3.1.2; 3.1.4; 3.1.5; 3.1.9 & 3.2.2) [See Ground Water]	\$0	\$0	\$0	\$0		
Apply science-based protocols for estimating unmeasured water uses. (Goals & Objectives 1.1.4 & 3.8.4)	\$0	\$0	\$0	\$0		
Continue to implement the Emergency Response / Drought Mitigation Action Plan. Identify existing and future NRD roles. Establish a water resource committee known as Drought Monitoring Group (Drought Emergency Response Plan, Section 6). Develop a cooperative cost-share program with all public water suppliers to develop a conservation or water shortage action plan. (Chapter 7, v) (3.5.4)	\$20,000	\$0	\$20,000	\$0	419400	

FISCAL YEAR 2020 ACTIONS			BUDGET	OTHER FUNDS
Conduct annual interagency meeting, conduct annual review with NDNR, prepare and distribute reports, and consider Plan amendments. (Chapter 7. I.c.ii & Chapter 9)			\$0	\$0
Participate with Lower Platte River Basin Coalition (LPRBC) in studies and implementation of a Basin Water Management Plan (Chapter 7, I, d, i) (Goals & Objectives 1.3.1; 1.5.2; 1.5.4; 2.6.1 & 2.6.2)			\$20,000	\$0
Review historic weather trends and cycles, data collection and sharing, and identify and address spatial and temporal gaps.			\$10,000	\$0
WATER INVENTORY				
Continue collecting and storing data on ground water levels, surface water flows and storage, water use, land use changes, population changes; climate changes, continue research on ground water hydrogeology characteristics; continue upgrade of water inventory database. [See Ground Water LRIP Program Area]			\$0	\$0
Use the best available data and tools to study and better understand the District's aquifer properties, extents and connectivity to surface water. (Goals & Objectives 1.1.1)			\$0	\$0
<ul style="list-style-type: none"> Utilize North Oak stream gauges in SVB SMA. 			\$0	\$0
Coordinate with NDNR INSIGHT on data collection and application. (Goals & Objectives 1.1.2)			\$0	\$0
Implement NDNR procedure to track depletions and gains to streamflows (Chapter 8.II.d) (Goals & Objectives 1.1.3)			\$5,000	\$0
Maintain a comprehensive spatial / tabular water inventory database. (Goals & Objectives 1.1.5)			\$5,000	\$0
Develop or modify programs in response to climate change projections. (Chapter 8.II) (Goals & Objectives 1.1.5)			\$10,000	\$0
Cooperate in surface and ground water modeling with NDNR, including hydrologically-connected areas. (Goals & Objectives 1.3.2)			\$0	\$0
Implement recommendations from Lower Platte River Drought Contingency Study including water conveyance via streams from upstream sources and associated effects on stream flow. (Goals & Objectives 1.3.3)			\$250,000	\$25,000
Coordinate with other entities to better understand urban growth projections and potential impacts on water inventory. (Goals & Objectives 1.4.1)			\$0	\$0
Coordinate with District-wide comprehensive planning initiatives to develop a technical review of rural development impacts on water inventory. (Goals & Objectives 1.4.2)			\$0	\$0
Cooperate with adjoining NRDs to map and analyze aquifers that span NRD boundaries. (Goals & Objectives 1.6.1)			\$10,000	\$0
WATER SUPPLY MANAGEMENT				
Implement recommendations for limited aquifer areas and coordinate with developers, builders and city and county land-use planners and zoning agencies. (Goals & Objectives 2.1.1)			\$20,000	\$0
Investigate areas where the geology indicates well interference is possible and explore options for prevention. (Goals & Objectives 2.1.4)			\$25,000	\$0
Develop tools to evaluate the potential impacts of new wells on existing wells. (Goals & Objectives 2.1.5)			\$25,000	\$0
Encourage discussions with municipalities and rural water districts on coordinating services and regional water systems. (Goals & Objectives 2.3.1)			\$0	\$0
Remove invasive species to improve conveyance. (Goals & Objectives 2.5.2) [See Platte River]			\$0	\$0
WATER USE MANAGEMENT				
Continue to implement the emergency response/drought mitigation action plan (Chapter 7.V) (Goals & Objectives 3.5.4)			\$20,000	\$0

FISCAL YEAR 2020 ACTIONS CONTINUED		
	BUDGET	OTHER FUNDS
Implement limitations or temporary or permanent moratoriums on irrigation of marginal lands during water shortage as applicable. (Goals & Objectives 3.1.6)	\$0	\$0
Continue agriculture irrigation BMPs and technology. (Goals & Objectives 3.1.2; 3.1.4; 3.1.5; 3.1.9 & 3.2.2) [See Ground Water]	\$0	\$0
Support multi-agency effort to develop and implement standards and ordinances for water conserving landscapes. (Goals & Objectives 3.3.1)	\$50,000	\$5,000
Develop a cooperative program with all public water suppliers to develop a conservation or water shortage action plan. (Goals & Objectives 3.5.4)	\$10,000	\$5,000
Evaluate Lower Platte South NRD streams for potential benefits from instream flow protection and determine minimum flows and levels needed. (Goals & Objectives 3.7.3)	\$10,000	\$0
Develop / continue proactive outreach to well owners to inform them about District regulations, practices, cost-share as well as limitations in District authority. (Goals & Objectives 3.9.6)	\$5,000	\$0
Develop conservation programs, fees and incentives for water use management. (Goals & Objectives 3.10.1)	\$10,000	\$0

Continue collecting and storing data on ground water levels, surface water flows and storage, water use, land use changes, population changes; climate changes, continue research on ground water hydrogeology characteristics; continue upgrade of water inventory database. [See Ground Water LRIP Program Area]			\$0	\$0
Use the best available data and tools to study and better understand the District's aquifer properties, extents and connectivity to surface water. (Goals & Objectives 1.1.1)			\$0	\$0
<ul style="list-style-type: none"> Utilize North Oak stream gauges in SVB SMA. 			\$0	\$0
Coordinate with NDNR INSIGHT on data collection and application. (Goals & Objectives 1.1.2)			\$0	\$0
Implement NDNR procedure to track depletions and gains to streamflows (Chapter 8.II.d) (Goals & Objectives 1.1.3)			\$0	\$0
Maintain a comprehensive spatial / tabular water inventory database. (Goals & Objectives 1.1.5)			\$5,000	\$0
Develop or modify programs in response to climate change projections. (Chapter 8.II) (Goals & Objectives 1.1.5)			\$10,000	\$0
Cooperate in surface and ground water modeling with NDNR, including hydrologically-connected areas. (Goals & Objectives 1.3.2)			\$0	\$0
Implement recommendations from Lower Platte River Drought Contingency Study including water conveyance via streams from upstream sources and associated effects on stream flow. (Goals & Objectives 1.3.3)			\$250,000	\$25,000
Coordinate with other entities to better understand urban growth projections and potential impacts on water inventory. (Goals & Objectives 1.4.1)			\$0	\$0
Coordinate with District-wide comprehensive planning initiatives to develop a technical review of rural development impacts on water inventory. (Goals & Objectives 1.4.2)			\$0	\$0
Cooperate with adjoining NRDs to map and analyze aquifers that span NRD boundaries. (Goals & Objectives 1.6.1)			\$10,000	\$0
WATER SUPPLY MANAGEMENT				
Implement recommendations for limited aquifer areas and coordinate with developers, builders and city and county land-use planners and zoning agencies. (Goals & Objectives 2.1.1)			\$20,000	\$0
Monitor areas where the geology indicates well interference is possible and explore options for prevention. (Goals & Objectives 2.1.4)			\$25,000	\$0
Encourage discussions with municipalities and rural water districts on coordinating services and regional water systems. (Goals & Objectives 2.3.1)			\$0	\$0
Remove invasive species to improve conveyance. (Goals & Objectives 2.5.2) [See Platte River]			\$0	\$0

FISCAL YEAR 2023 ACTIONS CONTINUED

	BUDGET	OTHER FUNDS
WATER USE MANAGEMENT		
Continue to implement the emergency response/drought mitigation action plan (Chapter 7.V) (Goals & Objectives 3.5.4)	\$20,000	\$0
Implement limitations or temporary or permanent moratoriums on irrigation of marginal lands during water shortage as applicable. (Goals & Objectives 3.1.6)	\$0	\$0
Continue agriculture irrigation BMPs and technology. (Goals & Objectives 3.1.2; 3.1.4; 3.1.5; 3.1.9 & 3.2.2) [See Ground Water]	\$0	\$0
Support multi-agency effort to develop and implement standards and ordinances for water conserving landscapes. (Goals & Objectives 3.3.1)	\$50,000	\$5,000
Continue cooperative program with all public water suppliers to develop a conservation or water shortage action plan. (Goals & Objectives 3.5.4)	\$10,000	\$5,000
Evaluate Lower Platte South NRD streams for potential benefits from instream flow protection and determine minimum flows and levels needed. (Goals & Objectives 3.7.3)	\$50,000	\$0
Develop / continue proactive outreach to well owners to inform them about District regulations, practices, cost-share as well as limitations in District authority. (Goals & Objectives 3.9.6)	\$5,000	\$0
Implement conservation programs, fees and incentives for water use management. (Goals & Objectives 3.10.1)	\$500,000	\$0

PERSONNEL, FINANCES, AND LAND RIGHTS REQUIREMENTS

This section of the Plan summarizes three important requirements of the District. Each requirement is vital in the operation of the District, and thus must be examined for the current fiscal year as well as forecasted for a longer range period.

PERSONNEL

FY2019:

Present District full-time personnel include: General Manager, Assistant General Manager, District Engineer, Projects Coordinator, Public Information Specialist, Environmental Education Specialist, Environmental Education Assistant, Resources Coordinator, Resources Conservationist, Stormwater/Floodplain Specialist, GIS Specialist, Water Resources Specialist, Water Resources Conservationist, Water Resources Technician, Operation and Maintenance Coordinator, Operation and Maintenance Technicians (2), Maintenance Technician, Administrative Assistant, Receptionist/Secretary, District Office Secretary/Program Assistant, Information Systems Administrator and Water Resources Compliance Specialist in the District office along with a Resource Technician and a Field Office Secretary in the Cass County NRCS office and two Resource Technicians and a Field Office Secretary in the Lancaster County NRCS Office. The District employs several part-time technicians assigned to the six county NRCS offices, a part-time Bookkeeper Assistant and part-time student interns, social media assistant, environmental education aides and summer field crews are also employed.

The Saline Wetlands Coordinator employed by the City of Lincoln, an NRD Forester and the Coordinator for the Eastern Nebraska Water Resources Assessment (ENWRA) under funding arrangements with UNL are officed at the District office.

The District will continue to increase utilizing social media by devoting additional time from the Social Media Assistant. The Lower Platte River Corridor Alliance will continue to meet, the LPRCA Coordinator position will remain vacant at this time. The Board authorized the hiring of a District Planner in 2018, the status of this position remains under review with existing staff (Assistant General Manager) handling the planning needs of the District. Additional personnel may be required in place of the District Planner, to assist with the Deadmans Run Flood Reduction Project, the Salt Creek Levee improvements, the Lincoln/Salt Creek Flood Resiliency Study, and other projects.

The District contracts with the Nebraska Department of Corrections for two inmate crews with supervisors to perform operation and maintenance and property management activities.

FY 2020 – 2023:

District staffing requirements will remain level or continue to increase in connection with the following projects: the Salt Creek Levee O&M/SWIF, Deadmans Run Flood Reduction Project, social media, the Prairie Corridor on Haines Branch project, Platte River activities, wetland restoration and preservation, recreation trails, implementation of the Ground Water Management Plan, the Lower Platte River Basin Water Management Plan (Coalition) implementation, the Integrated Management Plan/Drought Contingency projects, a growing commitment to operation and maintenance, aging infrastructure rehabilitation and urban stormwater management activities. Staff adjustments are likely.

FINANCES

FY 2019:

The District operates on a budget made up of a variety of sources, including property taxes from the District levy, federal funds, state funds from several programs/agencies and local funds under cost-sharing arrangements with communities, counties, and other local entities. The tables and graphs on the following pages display the sources and relative proportions of the District revenues and the level of planned expenditures for the various budget areas.

FY 2020 – 2023:

The long-term projections of expenditures are contained in the following tables. The largest potential funding needs in this time horizon and beyond is the proposed Deadmans Run Flood Reduction Project, Urban stormwater programs, the Prairie Corridor on Haines Branch, the MoPac East Connection to the Lied Platte River Bridge, and infrastructure (dams and levees) maintenance and rehabilitation. The Deadmans Run Flood Reduction Project's anticipated District cost of \$8 million is partially covered at this time, it will require approximately \$1 million per year in additional funds through 2022.

LAND RIGHTS

FY 2019:

Land right acquisitions will include additional easements for flood control dam rehabilitation, easements for open space and projects that are a part of basin master plan implementation, the Deadmans Run Flood Reduction Project, conservation easements and fee title for the Prairie Corridor on Haines Branch project, conservation easements, leases for monitoring wells and easements or acquisitions of wetlands. Implementation of the Deadmans Run Flood Reduction Project will require coordination

between the City of Lincoln and District to acquire the necessary land rights for the project.

FY 2020 – 2023:

Land rights will be required for the Deadmans Run Flood Reduction Project, the Prairie Corridor on Haines Branch Project, for trails and trail connections, for conservation easements as proposed and considered, for wetlands, for Lincoln basin master plan implementation, and along the Salt Creek Levees in Lincoln and other flood plain areas.
